

SURVEY ON THE LEISURE BEHAVIOR AND CONCEPT OF
LEISURE IN THE BIG INDUSTRIES : (Part. 2)

SHINSHIRO EBACHI, SHINJI MORINO, MASARU IKEDA
(SCHOOL OF EDUCATION, UNIVERSITY OF TOKYO)

Leisure time activities and concept of leisure of workers in the big industries were analyzed in relation to their living conditions, economical status and their past experienced in the colleges and universities.

Following findings were revealed as follows:

- 1) Status of marriage influence to their leisure time activities.
- 2) There is no great significant relation between leisure time activities and amount of leisure time in case of this survey.
- 3) Amount of money spended for leisure has great significant factors of their leisure time activities.
- 4) There is high co-relation between living environment and active leisure time activities.
