

A STUDY ON RECREATION LEADERS

- Their consciousness and realities on the basis of distinctions of sex and generation

This paper attempts to investigate recreation-leaders, emphasizing upon consciousness and realities on the basis of distinctions of sex and generation, and makes some preliminary suggestions about the implications for the ideal way of recreation leaders.

Summary

As for present-day recreation leaders, the following conclusions were suggested:

1. Most of them were dissatisfied with their own ability of coaching, regardless of sex and generation;
2. Without distinction of sex, the elder generation have the more coaching items of merit;
3. As for the nature for the leaders, most of them, regardless of sex and generation, laid stress on health, cooperation, humour, liveliness, etc.;
4. 30% of them, regardless of sex and generation, desired to be a professional leader, 30% a volunteer, and the rest 40% both of them;
5. 70% of them, regardless of sex and generation, had some worries, the most of which was of recreation theory.
